Dr. Natalie Wong

Dr. Natalie Wong graduated from the University of Toronto with her Doctor of Dental Surgery in 1996 and received her Certificate in Prosthodontics from the University of Michigan, Ann Arbor in 2007.

She is the only dentist that has attained a combination of the U.S. Board Certification in Implant Dentistry (Diplomate from the American Board of Oral Implantology (ABOI) - 2003), U.S. Board Certification in Prosthodontics (Diplomate of American Board of Prosthodontics (ABP) - 2008), and Canadian Board Certification in Prosthodontics (Fellow of Royal College of Dentists of Canada - 2008).

She is a Diplomate of the International Congress of Oral Implantologists (ICOI), and holds Fellowships with the American Academy of Implant Dentistry (AAID), Academy of General Dentistry (AGD), and the Misch International Implant Institute Canada for which she is also a Faculty Member. Dr. Wong has served as the Co-Director and an Associate-in-Dentistry (clinical instructor) in the Implant Prosthodontic Unit, Graduate Prosthodontic Department, University of Toronto. She has also served as a Clinical Assistant Professor of Oral Implantology, Department of Periodontology, Temple University. She is a Past-President of the ABOI and is currently the President of the AAID, Past-President of the Association of Prosthodontists of Ontario, and Founder and Director of the Toronto Implant Institute Inc.

Dr. Wong lectures nationally and internationally on implant dentistry and practices both the surgical and prosthetic phases of implantology in Toronto, Ontario, Canada.

# Program Directors

Dr. Adam Foleck

Dr. Adam Foleck received his undergraduate education at the University of North Carolina at Chapel Hill, and his dental training from Temple University School of Dentistry where he graduated in 1997. He continued his post-graduate training in an Advanced Education in General Dentistry program at the University of Mississippi Medical Center/School of Dentistry, with a concentration in implants in cosmetic dentistry. This was completed in 1998 and he afterwards relocated to Norfolk, VA to enter private practice. In 2002, he completed the MAXI/Implant program at the Medical College of Georgia. He completed the anesthesia program in 2006 at the University of Alabama School of Dentistry.

In 2004, he received an Associate Fellowship from the American Academy of Implant Dentistry. In 2012 he became a Fellow and in 2014 an Honored Fellow of the American Academy of Implant Dentistry. In 2011, he received his Diplomate in the American Board of Oral Implantology. Dr. Foleck has lectured nationally and internationally on implantology, with a concentration on digital technologies and its applications into implant dentistry. He continues to mentor dentists who are just beginning with implantology and with more advanced grafting and prosthetic cases. He also lectures on marketing and how to make dental implants profitable, as well as integrating the staff. He was President of the Southern District of the AAID and then served on the Board of Trustees for two terms. He has been the chair of many committees and is currently the Vice-President of the AAID. He is the Founder of The Foleck Center for Cosmetic, Implant and General Dentistry and continues to work there focusing on implant dentistry.

## Session 1: Fundamentals I November 7-10, 2019

### Topics:

- ▶ Introduction to Implantology
- ▶ Rationale for Dental Implants
- ▶ Biomechanics, Biomimetics and Biomaterials
- ▶ Diagnosis and Treatment Planning
- ▶ Diagnostic Records for Dental Implantology
- ▶ Fixed and Removable Prosthetic Options for Dental Implants
- ▶ Prevention and Management of Medical Emergencies in the Dental Office

### Hands-On:

- ▶ Obtaining Diagnostic Records
- ▶ Customizing Consent Forms

## Session 2: Surgical Principles December 5-8, 2019

### Topics:

- Surgical Instrumentation
- Atraumatic Extractions
- Socket Grafting
- Step by Step Implant Surgery including, Incision, Reflection, Osteotomy, Implant Placement, Flap Closure
- One Stage vs Two Stage Approach

### Hands-on:

- Implant Placement
- Suturing Techniques

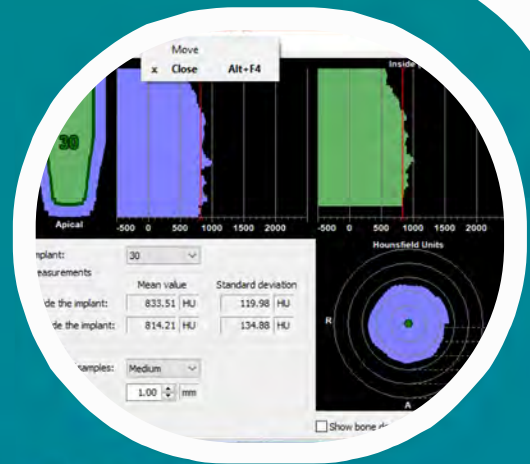

## Session 3: Fundamentals II January 16-19, 2020

### Topics:

- Patient Assessment and Treatment
- Bone Density and its Effect on Implant Treatment Planning
- Oral Radiology – 2D & 3D ● CBCT Imaging and Diagnosis
- Key Implant Positions
- Basic Principles of Implant Surgery and Prosthetics

### Hands-On:

- Bone Density Determination ● Radiographic & Surgical Templates
- Treatment Planning with CBCT Software ● Aseptic Techniques

### Hands-On:

- Venipuncture Techniques ● Centrifuging and Preparing PRP/PRF
- Preparing and Manipulating Bone Grafting Materials with PRP/PRF

## Session 4: Pharmacological Principles February 20-23, 2020

### Topics:

- Scientific Principles of Platelet Concentrates and Growth Factors
- Practical Applications of PRP/PRF
- Pharmacology for Implant Dentistry – Pre and Post-operative Medications
- Pre-Prosthetic Treatment Planning
- Principles of Guided Implant Surgery

## Session 5: Basic Grafting Techniques

March 26-29, 2020

### Topics:

- Hard & Soft Tissue Considerations
- Different Flap Design for Esthetic and Non-Esthetic Zones
- Principles of Grafting & Materials Used
- Immediate Implant Placement
- Complications of Grafting

### Hands-On:

- Extraction & Socket Grafting
- Particulate Bone Grafting with Tenting Screws and Membranes
- Soft Tissue Grafting

### Pig Jaw Workshop

## Session 6: Prosthetic Principles

April 30 - May 3, 2020

### Topics:

- Implant Prosthetics – Parts and Pieces
- Overdentures
- Screw Retained vs. Cement Retained Prostheses
- Identifying Failure and Managing Complications
- Step by Step Implant Impressions for Fixed and Removeable Prostheses
- Implant Occlusion Concepts

### Hands-On:

- Direct & Indirect Impression Techniques
- Overdenture Pick Up Impression Technique ● Verification Jigs

## Session 7: Advanced Grafting Techniques June 4-7, 2020

Cadaver  
Workshop

### Topics:

- Review Surgical and Regional Anatomy of the Orofacial Region Pertinent to Implant Dentistry
- Crestal Approach Sinus Lifting Procedure
- Lateral Approach Sinus Grafting Procedure
- Horizontal Augmentation with Autogenous and Allogenic Blocks
- Harvesting of Connective Tissue Grafts and Free Gingival Grafts
- Soft Tissue Augmentation with Acellular Dermal Matrix
- Placement of Implants in Edentulous Areas of Maxilla and Mandible
- Bone Spreading

### Hands-On:

- Perform Advanced Grafting Procedures on Cadaver Specimens

## Session 8: Current Concepts in Dental Implantology June 25-28, 2020

### Topics:

- Immediate Loading of Dental Implants
- "All-On-X" Concept
- Guided Surgery/Guided Prosthetics

### Hands-On:

- Guided Surgery, Guided Prosthetics

## Our Distinguished Faculty

Dr. Dan Abell  
General Dentist, Paramedic

Dr. Shankar Iyer  
Prosthodontist

Dr. Dwayne Karateew  
Periodontist

Dr. Jaime Lozada  
Prosthodontist

Dr. Gadia Peabody  
Prosthodontist

Dr. James Rutkowski  
General Dentist

Dr. Mitra Sadrameli  
Oral and Maxillofacial  
Radiologist

Dr. Bart Silverman  
Oral and Maxillofacial  
Surgeon

### Course Fee: \$19,000

Please contact us for special tuition fees for recent graduates, students, or military.

### Course Location:

ADA Conference & Meeting Center  
211 E. Chicago Avenue Chicago, IL 60611
